High Risk Client(s) Only

Order high-risk vaccine(s) according to the High-Risk Vaccine Programs as outlined in the most recent **Publicly Funded Immunization Schedules for Ontario** (includes interim guidance for oral polio and pneumococcal) (ontario.ca/page/vaccine-resources-professionals)

Vaccine	Indicate high-risk criteria	Date of birth (yyyy/mm/dd)	Doses requested
Hepatitis A For individuals 1 year of age and older (adult or pediatric product will be dispensed as different products have different age ranges)			
Hepatitis B (adult) For individuals 16 years of age and older, or younger individuals needing a double dose*			
Hepatitis B (pediatric) For individuals less than 19 years of age on a 3-dose series*			

Vaccine	Indicate high-risk criteria	Date of birth (yyyy/mm/dd)	Doses requested
Hepatitis B high-dose (adult) For individuals 20 years of age and older needing a high dose, or call Public Health if ordering for an individual 16-19 years of age			
Hib (Haemophilus influenzae type b) For individuals 5 years of age and older			
HPV-9 (Human papillomavirus) For males 9 - 26 years of age			
Meningococcal B For individuals 2 months - 17 years of age			
Meningococcal Conjugate ACYW-135 For individuals 6 weeks of age and older **			
Pneumococcal 20-valent Conjugate For individuals 6 weeks to 64 years of age			

* Product ordered will be the one dispensed.

** For individuals 6 weeks to under 2 years of age, see the Ontario Ministry of Health fact sheet for health care providers at ontario.ca/page/vaccine-resources-professionals#section-5
